

Interference search LDR 6/9/08

EAST Search History

Ref #	Hits	Search Query	DBs	Default Operator	Plurals	Time Stamp
L1	0	distance image sensor and projecting light and photo detector and plurality of gate means same MOS structure and plurality of charge storage nodes and control means same switching gate means and charge storage nodes same second charge storage node same photo detector same alternately transferred and stored same light intermittent same distribution ratio. clm.	US-PGPUB	NEAR	ON	2008/05/21 12:17
L2	0	distance image sensor and projecting light and photo detector and plurality of gate means same MOS structure and plurality of charge storage nodes and control means same switching gate means and charge storage nodes same second charge	US-PGPUB	NEAR	ON	2008/05/21 12:17

		storage node same photo detector same alternately transferred and stored same light intermittent same distribution.clm.				
L3	0	distance image sensor and projecting light and photo detector and plurality of gate means same MOS structure and plurality of charge storage nodes and control means same switching gate means and charge storage nodes same second charge storage node same photo detector same alternately transferred and stored same light intermittent.clm.	US-PGPUB	NEAR	ON	2008/05/21 12:17
L4	0	distance image sensor and projecting light and photo detector and plurality of gate means same MOS structure and plurality of charge storage nodes and control means same switching gate means and charge storage nodes same second charge	US-PGPUB	NEAR	ON	2008/05/21 12:17

		storage node same photo detector same alternately transferred and stored same light. clm.				
L5	0	distance image sensor and projecting light and photo detector and plurality of gate means same MOS structure and plurality of charge storage nodes and control means same switching gate means and charge storage nodes same second charge storage node same photo detector same alternately transferred and stored.clm.	US-PGPUB	NEAR	ON	2008/05/21 12:17
L6	0	distance image sensor and projecting light and photo detector and plurality of gate means same MOS structure and plurality of charge storage nodes and control means same switching gate means and charge storage nodes same second charge storage node same photo	US-PGPUB	NEAR	ON	2008/05/21 12:17

		detector same alternately transferred.clm.				
L7	0	distance image sensor and projecting light and photo detector and plurality of gate means same MOS structure and plurality of charge storage nodes and control means same switching gate means and charge storage nodes same second charge storage node same photo detector same alternately.clm.	US-PGPUB	NEAR	ON	2008/05/21 12:17
L8	0	distance image sensor and projecting light and photo detector and plurality of gate means same MOS structure and plurality of charge storage nodes and control means same switching gate means and charge storage nodes same second charge storage node same photo detector.clm.	US-PGPUB	NEAR	ON	2008/05/21 12:17

L9	0	distance image sensor and projecting light and photo detector and plurality of gate means same MOS structure and plurality of charge storage nodes and control means same switching gate means and charge storage nodes same second charge storage node. clm.	US-PGPUB	NEAR	ON	2008/05/21 12:18
L10	0	distance image sensor and projecting light and photo detector and plurality of gate means same MOS structure and plurality of charge storage nodes and control means same switching gate means and charge storage nodes same second charge. clm.	US-PGPUB	NEAR	ON	2008/05/21 12:18

L11	0	distance image sensor and projecting light and photo detector and plurality of gate means same MOS structure and plurality of charge storage nodes and control means same switching gate means and charge storage nodes same second.clm.	US-PGPUB	NEAR	ON	2008/05/21 12:18
L12	0	distance image sensor and projecting light and photo detector and plurality of gate means same MOS structure and plurality of charge storage nodes and control means same switching gate means and charge storage nodes.clm.	US-PGPUB	NEAR	ON	2008/05/21 12:18
L13	0	distance image sensor and projecting light and photo detector and plurality of gate means same MOS structure and plurality of charge storage nodes and control means same switching gate means and charge storage.	US-PGPUB	NEAR	ON	2008/05/21 12:18
